

Thor Wessel Lindberg

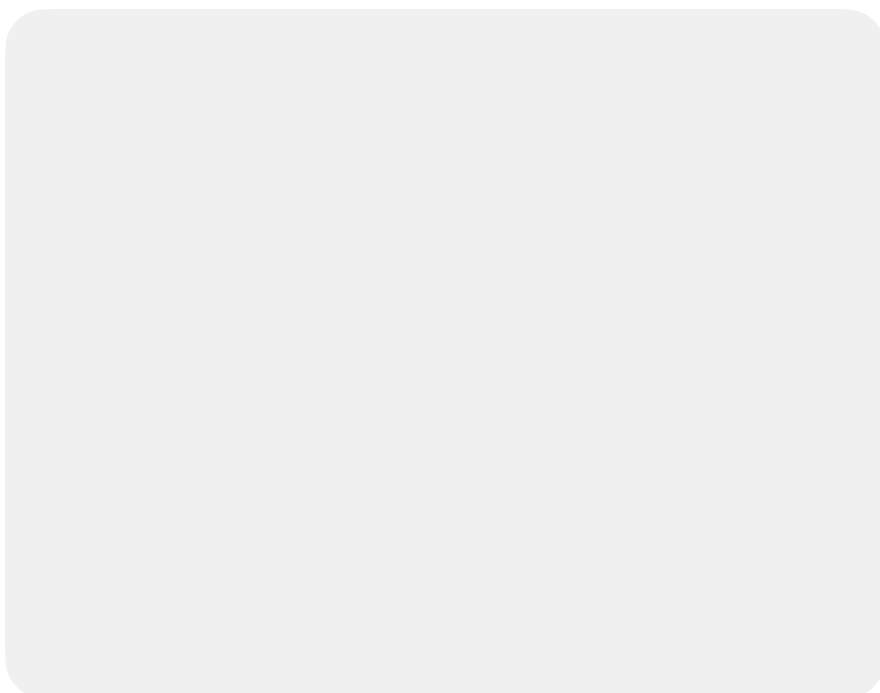

Bachelor of Science in Health Information Technology

Currently a master's of IT student at the IT-University in Copenhagen, I am passionate about design and computer science. In my free time I author Swift-based applications that provide intuitive graphical user interfaces for otherwise text-based data processing, with the aim of publishing on Apple's App Store in the future. I have a keen eye for detail and visual communication, and I value planning and structured work.

2020-2022 CAND.IT MASTER OF SCIENCE, DIGITAL DESIGN AND TECHNOLOGIES

2017-2020 BACHELOR OF SCIENCE, HEALTH INFORMATION TECHNOLOGY

PROGRAMMING SKILLS

Object-oriented programming

Swift

Python

JavaScript

React

HTML/CSS

MATLAB

Databases

Data processing

Image processing

DESIGN SKILLS

Prototyping

Co-design

Graphics composition

Ethnography

SCRUM

Tableau

Figma

Pixelmator

Keynote

Pages

HEALTH SCIENCE

Telemedicine

Epidemiology

Human anatomy, physiology, pathology

Healthcare infrastructure

INTERESTS AND VALUES

Data science

Material honesty

Collaboration
